Hot Weather Policy

When the Bureau of Meteorology forecast maximum released on the Thursday prior to our next game is 38 degrees Celsius or above our game on the following Monday will be cancelled.

The reason for adopting the early forecast is to allow time for the Captain to notify the host club.

When games are held in the Hills region, the Mt Barker forecast will be used.

The Annual Presentation Lunch and AGM games are excluded from this policy.

Thunderstorm Policy

Our approach regarding electrical storms will be to observe the host club's policy and directions.

In the event that the host club does issue a warning, play shall be suspended immediately and all members are to return immediately to the club-house.
